TEES VALLEY MAYOR

# WHAT?

**Tees Valley Combined Authority (TVCA), in partnership with Stockton, Middlesbrough, Darlington and Redcar and Cleveland Local Authorities, has secured more than £2 million of funding to upgrade the energy efficiency of homes across our local community – and we're reaching out to see if YOU could benefit.**

With a selection of funding options, including **wall and loft insulation, solar thermal and PV panels, air source heat pumps, double glazing and replacement electric storage heaters** there is an energy saving investment for every property and home - from modern spaces to period properties full of character.

# WHY?

With the cost of living in the UK on the rise and energy bills set to increase this winter, families are feeling the pinch across our community and beyond.

Through Home Upgrade Grants, we hope to support families and low income households with making the kind of changes and improvements that could transform their situation.

Through vital home improvements, households can not only enjoy a warmer home but will be able to relax – safe in the knowledge that their property is doing all the hard work, while their energy bills get a bit of a break.

And it doesn't end there. When you improve the energy efficiency of your property, you are also supporting a greener future for your community and for your loved ones. With advice and funding that can help you to make smart and sustainable choices, this funding allows your hard-earned money to be spent on things that warm your heart, not your home.

## WINTER IS COMING...

We don't want to see anyone in the local community go cold this winter. By applying for a HUG, you can ensure that your home is winter-ready long before the frost sets in – and join our community as we embrace a greener, cleaner future.

# HOW?

The funding is designed to make it easier for you to benefit from energy efficient upgrades, empowering our local community to do what we can for ourselves, our neighbours, and our planet.

To be eligible for funding, you need to tick the following boxes:

- ✓ **YOUR HOME MUST BE “OFF GAS” – THAT IS YOU MUST USE OIL, SOLID FUEL, LPG OR ELECTRICITY TO HEAT YOUR HOME.**
- ✓ **YOUR TOTAL ANNUAL HOUSEHOLD INCOME MUST BE LESS THAN £30,000.**
- ✓ **YOUR PROPERTY MUST HAVE AN EPC RATING BETWEEN D AND G.**
- ✓ **YOU MUST LIVE IN ONE OF THE FOLLOWING AREAS – STOCKTON, DARLINGTON, MIDDLESBROUGH, AND REDCAR & CLEVELAND.**

To find out more and to kickstart your journey towards a warmer winter, get in touch with us **TODAY**. This grant has a limit, with funding shared on a first come first serve basis. Don't delay and leave it too late to benefit!
