

Extension for Community Healthcare Outcomes

Learning Disability week

Learning Disability Week takes place
Monday 15 to Sunday 21 June 2026.

The theme for 2026 is "Do you see me?"
which is all about people with a learning
disability being seen, heard and valued.

Health Passport - Awareness Training

*Open to all staff working in health, education and
social care settings, family members, and carers*

Working in partnership to improve the experience of healthcare for people with a
learning disability and autistic people

Facilitated by:

**Rebecca Powell-Wood (Learning Disability and Autism Professional Lead) &
Keeley Rowley (Learning Disability and Autism Practitioner), Sheffield Teaching Hospitals NHS**

This 90-minute online awareness session aims to increase knowledge and understanding of Health Passports (formerly known as Hospital Passports) and how these should be used by the person, their staff, family members, and carers to identify their health and support needs, their likes, and dislikes, how they communicate and any reasonable adjustments that they might need.

By the end of the session, you will:

- Understand how to use a Health Passport to inform visits to health care settings and reasonable adjustments to the care and treatment that are required
- Be able to identify opportunities where you can support reducing inequalities through use of the Health Passport
- Understand the pool of resources available for hospital staff and how to access these.

Thursday 18 June 2026, 10.00am to 11.30am
