Reaching Out To Families

*'Its good to see
friendly faces'*
Family carer

*"I attend the group to
impart what I know
and to gain what I do
not, but really to meet
other people and have
a relaxing time"*
Family carer

*"Also, I get practical support
which can mean getting help
when I need it and not after it
was needed. All of which is gold-
dust to me".*

"I find the group benefits me as a place where I always feel heard and understood when I speak about my individual situation.

I don't have to set the context. I don't have to give lots of explanations. I see heads nodding and can simply have the expectation that I will be understood"
