

Tell us what you think about the National Diabetes Audit (NDA) and help us to shape what the NDA will look like from 2022.

The NDA measures the effectiveness of diabetes healthcare against clinical guidelines and quality standards in England and Wales. It covers 5 areas of diabetes care:

NDA core audit covers the care received by all people with type 1, type 2 and other forms of diabetes in GP practices and specialist services. It tells us things like whether people receive their recommended healthcare checks and what their blood glucose, blood pressure and cholesterol levels are.

National Diabetes Inpatient Safety Audit (NDISA) covers care received by people with diabetes when they are an inpatient in hospital.

National Diabetes Foot Care Audit (NDFA) covers the quality of specialist foot care provided to people with diabetes. It tells us things like how long people with a foot ulcer have to wait to for a specialist assessment and how long it takes to heal from a foot ulcer.

National Pregnancy in Diabetes audit (NPID) measures the quality of care provided to women with diabetes through pre-conception, pregnancy and birth.

National Diabetes Transition Audit (NDTA) measures the care of young people with diabetes during the transition from paediatric diabetes services to adult diabetes services.

There are 2 ways you can tell us what you think

Survey

The survey will take about 30 minutes to complete as it covers all of the above components of the programme, it includes technical questions that might be difficult if you are unfamiliar with NDA. The survey link is here - <https://www.surveymonkey.co.uk/r/PCLC9NN>

Focus groups

The focus groups will be held virtually and will be an opportunity to have a more open discussion to learn about the NDA and for you to tell us about the areas of diabetes care that are most important to you. These will be two hour sessions held virtually on the following dates:

Monday 7th June (afternoon) and **Thursday 17th June** (morning)

If you are interested in participating in the focus groups, please contact kim.rezel@hqip.org.uk for further information.
