

BEYOND THE MASK

YOUR STORIES SEEN AND HEARD

Do you work in health care or a care home? Come and tell us about how the pandemic has impacted upon you.

Watch as the actors improvise your stories and play them back as we co-create an online show. Playback theatre is a way of witnessing individual experiences whilst building group connection and understanding.

This show will take place via Zoom and will be recorded for a short film that celebrates the dedication of the region's health and care staff throughout the COVID 19 pandemic.

"Thank you so much. It was a privilege to witness, listen and connect. Thank you for the authenticity and respect from the performers."

"My participation has fostered my hope and resilience and strengthened my sense of humanity that I am not alone when going through this journey. It has encouraged me to share more."

7.30pm Tuesday
28th September

Tickets are free

Audience size is limited to 25
